Experience

Java Full Stack Development Trainee   **AUG 2024-APR 2025**

Qspider Software Training Institute   *Velachery, Chennai*

- Underwent intensive training in **Java Full Stack Development**, covering both front-end and back-end technologies. Gained hands-on experience in **Core Java**, **Advanced Java (JDBC, Servlets, JSP)**, and **Spring Boot** for backend development.
- Learned **SQL** for database handling, including writing complex queries and database connectivity.
- Acquired knowledge in **Web Technologies** including **HTML5**, **CSS3**, and **JavaScript** for building responsive and interactive UIs. Trained in **React.js** for developing modern, component-based front-end applications.
- Completed multiple projects and practical assignments simulating real-world application development. Focused on building scalable and maintainable web applications following industry best practices.

E-Publishing Intern   **NOV 2023-JUL 2024**

Lumina Datamatics   *Lawspet, Pondicherry*

- Streamlined content creation processes by implementing a standardized HTML and CSS framework, reducing content format ting time by 40% and allowing for faster turnaround on e-publishing projects and improved team productivity.
- Gained hands-on experience through specialized QC department training, resulting in an ability to apply stringent review techniques that enhanced overall project integrity and reduced error rates by 30%.

Projects

Portfolio / *HTML5, CSS3 and JavaScript*   **Jan 2025**

- Developed a visually appealing portfolio website that highlighted eight distinct projects, employing responsive design techniques to ensure seamless usability across desktop and mobile devices, as confirmed by Google Analytics data.
- Crafted visually captivating interfaces with responsive designs using HTML/CSS, enriching the end-user experience while ensuring compatibility across eight distinct devices verified through rigorous usability testing metrics.
- Here is the link https://antoniraj-resume-fullstackdeveloper.netlify.app/. And 4 projects are mentioned in my portfolio.

Dops Mixter / *HTML5, CSS3, and JavaScript*   **Dec 2024**

- Created a sophisticated media-streaming website fusing elements from both subscription services within eight months; analyzed user feedback data which led to significant enhancements in interface responsiveness based on actual interactions logged.
